

WMCA Program on Frederick Health on Sept. 18

Erin Betz, Director of Volunteer Services for Frederick Health coordinated a presentation with panelists.

Panelists included Hamp Tisdale, the current Auxiliary President, Susan Chapman, a volunteer at Select Seconds Thrift Shop, and Erin Betz. They talked about the Frederick Health Auxiliary, the various volunteer service opportunities, and the benefits of volunteering. Also Debbie Streeton, Development Officer with Frederick Health discussed the hospital's non-profit status and the importance of charitable contributions.

Each of the presenters included powerpoint slides on their topics.

Did you know that Frederick Health has one of the largest volunteer programs in the state of Maryland? It is a dynamic group of people of all ages, races, backgrounds, skills and abilities who are all working toward the same goal – helping others.

This event gave us a chance to ask questions about the programs associated with Frederick Health.

We encouraged attendance at the Clubhouse to provide an atmosphere that allowed the in-person presenters to have a better relationship with the audience. Thus a virtual presentation **was not be available**. The presentation however was recorded. A link for the Youtube recording was available the day after the in-person presentation. It was sent to our email list.

We held our first Meet and Greet before this presentation at 6:30 pm. Light refreshments were available.
